

Allschwil, Switzerland - May 27, 2015

Exceptional market development forces Bilcare Research to increase prices

Recent and still ongoing declarations of Force Majeures in the supply chain of PVC were leading to a shortage in raw material and significant increases in resin prices. The Bilcare Research Group managed as a leading manufacturer of PVC rigid films, to secure its resin supply.

"The current market situation forces us to pass these price increases on", states Thorsten Kühn, CEO Bilcare Research AG, Switzerland.

Note to the Editors
