## **Bilcare Research Forms Partnership with Linerpac of Mexico**

### ***Bilcare Research's quality blister and shrink sleeve films now available in Mexican packaging market through Linerpac***

To facilitate the Mexican packaging market's access to Bilcare Research's quality packaging materials, Bilcare Research, one of the world's largest manufacturers of blister packaging and shrink film solutions, has formed a partnership with Linerpac & Unipac de Mexico SA de CV. Linerpac, in addition to its current product portfolio of cap liners, pouch laminations, dosing caps and dispensers, and sealing machines, will represent Bilcare Research's full line of pharmaceutical and medical blister films, including PVC Mono, PVC/ PVdC, PVC/Aclar<sup>®</sup>, PVC/AquaBa<sup>®</sup>, and triple-layer structures. In addition to these enhanced product offerings, Linerpac will provide its customers access to Bilcare Research's innovative packaging research and development services including BilcareOptima™, an enhanced, in-depth formulation and degradation analysis that ensures optimal packaging solutions and FastPack™ which, through 15 years of drug sensitivity and packaging materials profiling, aids global pharmaceutical companies in overcoming stability studies' time and resource constraints by expediting, through a sound scientific process, the identification of a drug product's most optimal packaging materials.

Linerpac, which has been servicing the packaging industry in Mexico for close to twenty years, will also market Bilcare Research's comprehensive line of superior quality mono-axially TD-orientated PVC and PETG shrink films for the manufacture of full-body shrink sleeves, tamper evident bands and promotional packs. Linerpac, utilizing over 50 years of film manufacturing experience through Bilcare Research, can offer tailor made films for today's demanding product profiles and printing requirements.

"We are pleased to form this partnership with Linerpac, a respected name in the industry, and look forward to working with the Linerpac team and their customers in bringing the best blister and shrink film materials to the Mexican packaging market", stated Kevin Stevens, President and Managing Director of Bilcare Research Inc.

“The addition of Bilcare’s quality blister and shrink films, as well as their service offerings, allows us to better serve our customer base with an increased product portfolio that can fulfill practically all packaging needs,” commented Antonio Barrera, Managing Director of Linerpac & Unipac de Mexico SA de CV. Attendees to Expo Pack Guadalajara can visit with Bilcare and Linerpac in Stand No. 4420 on June 13 – 15.
